

2020-2021 Membership Survey

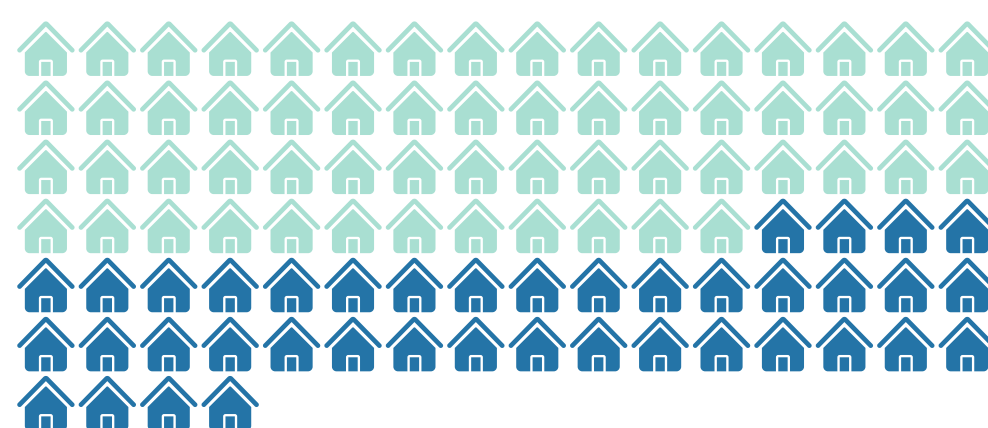

Each year, we ask members to reflect on their member experience. We hope to learn the impact of the work we do as an organization, and how to continue best serve our members.

Individual Membership

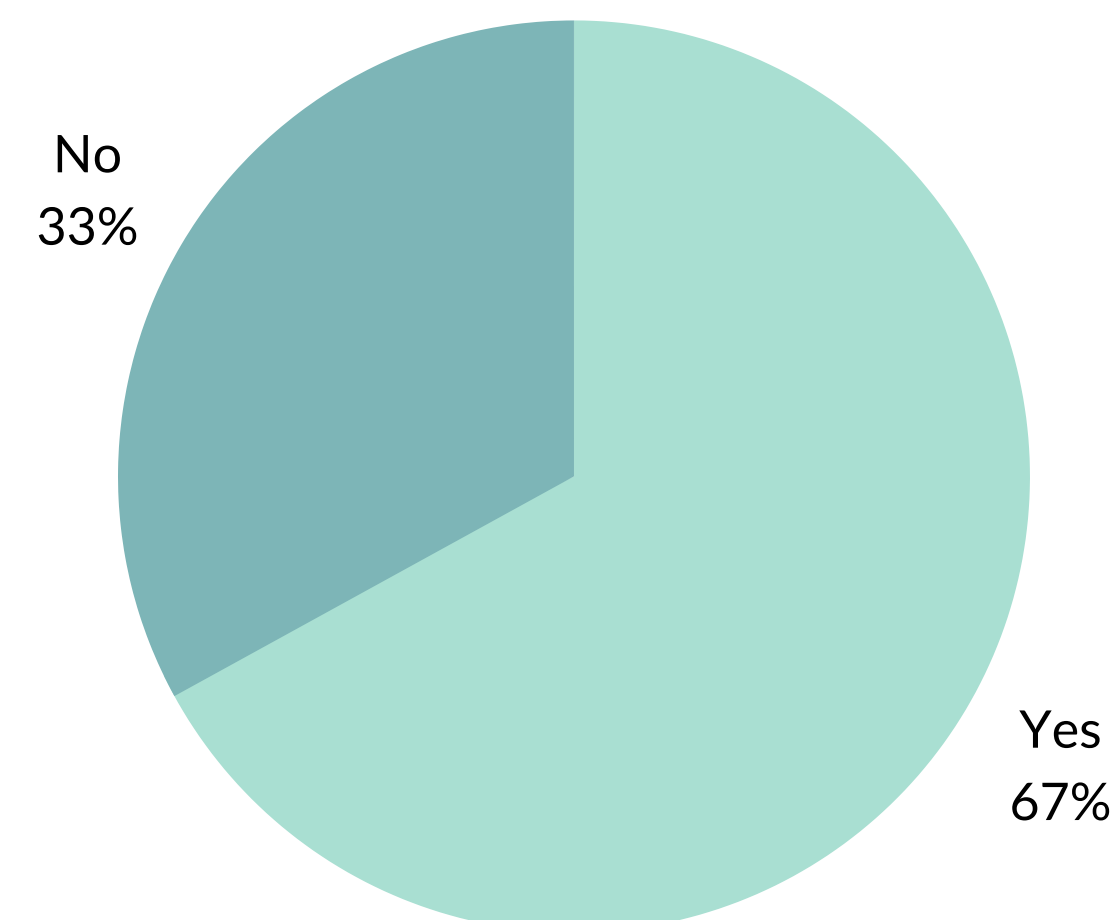

79% of respondents reported they were individual members

Organizational Membership

60% of respondents reported their agency as organizational members

Do you serve or work with Spanish speaking communities?

Why did you join TAASA?

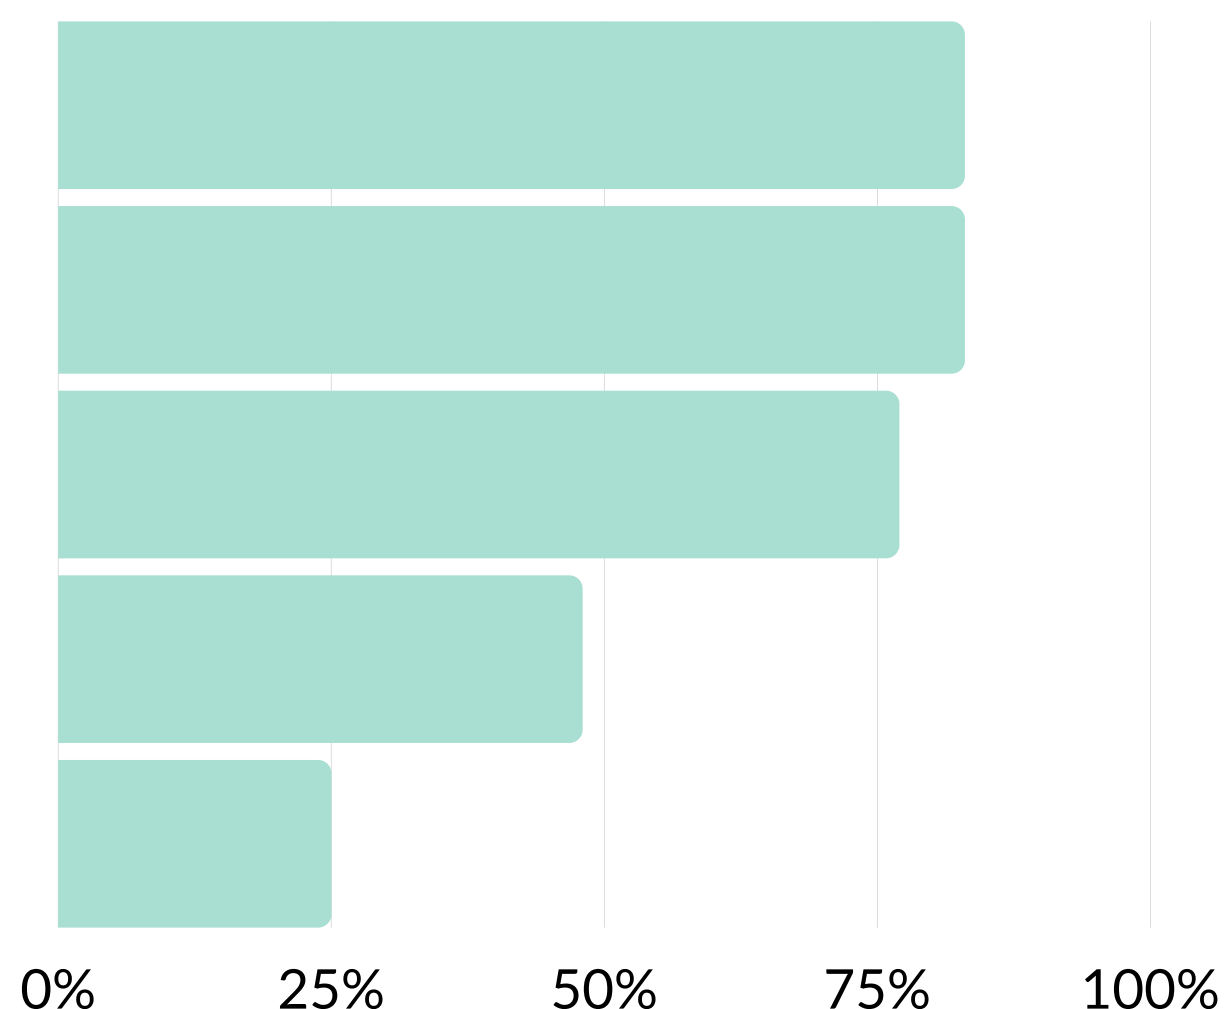

To support legislative advocacy for survivors and ending sexual violence

To access resources and training on sexual violence

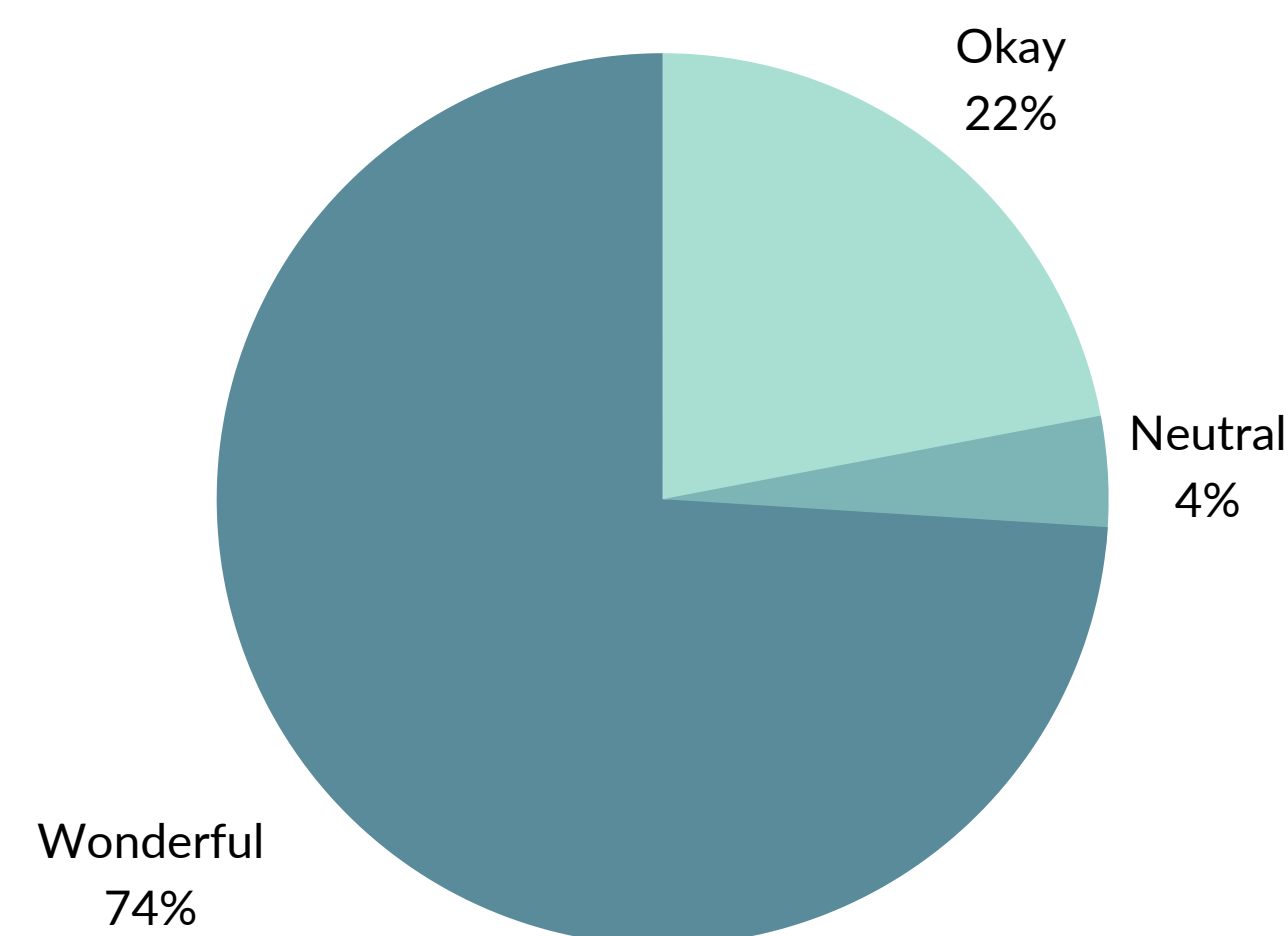

To connect with others working in the anti-sexual violence movement

Attended a TAASA training or conference and wanted to support TAASA

Am/Was a part of an organization that joined

How was your experience as a member?

What are our members saying?

"I greatly appreciate learning from TAASA staff, they are **passionate, knowledgeable and incredibly compassionate.**"

"TAASA **expands our capacity exponentially.** We are a small, rural, isolated agency trying to do the best we can with what we have. **The training, support, and networking TAASA gives us allows us to access invaluable resources, and understand that we may be small, but our work matters tremendously.**"

"Initially, **I participated in conferences, trainings, region meetings, etc as part of my agency membership. I then decided that I wanted to be a voting member with an individual membership also.** I am especially interested in the role TAASA plays in Public Policy in Texas."

"Being a member **allows me to have voting rights, a voice, and actively participate in this movement on a state level.**"
